Private Singing Tuition	Monday & Wednesday	60 min	Anthony & Amy	\$80.00

COURSE DESCRIPTIONS

DRAMA / SCREEN ACTING CLASSES (KIDS, ADULTS & TEENS)

Learn and prepare scripts one week, rehearse and film the next in this dynamic acting for camera course. Suitable for students new to acting through to the more advanced working actor wishing to stay primed. Throughout each term students will explore a range of skills including script analysis, character development, skills for screen tests and camera technique. Students can collect their scenes on USB to take home and analyse at any time. Our highly experienced tutors support the training with expert advice and tips, whilst encouraging students to be the best they can be. Each of our Drama / Screen Acting classes work on a short film throughout the year. Supported by their tutor, the students will contribute to developing the script and characters, assist in the film-making process, and each have a role in their film. The short films are then screened at a cinema later in the year as part of our annual "APS Short Film Festival", and will also be available for viewing on YouTube. The films are judged by a panel of experts from APS for consideration in our Short Film Festival Awards at the end of the year, where nominees are awarded certificates and winners are awarded trophies.

DRAMA / SCREEN ACTING CLASSES (KIDS)

Throughout the year, students devise, rehearse and shoot a short film in this kid's version of our fun and creative acting course. Through a series of drama games, improvisations and workshops each term, students explore a range of skills including on-camera scene work, story structure, characterisation and being relaxed on camera. The young students will be introduced to audition techniques and filmmaking processes, make new friends and explore fun ways of investigating the actor's journey as they work with our professional and experienced tutors on their own short film (also included in the Annual "APS Short Film Festival"). The young students love the Red Carpet experience of opening night, and the anticipation and excitement of finding out whether they have been nominated in the Short Film Festival Awards Ceremony. As well as being screened at a Cinema as part of our film festival, the Kids' films will also be available on our YouTube Channel for family and friends to view.

MUSICAL THEATRE

Ideal for students who show a love of singing, dancing and acting, classes involve vocal and movement warm ups, dance techniques, storytelling and character work. In a fun and energetic atmosphere, students will learn new songs, develop choreography and devise performances. As well as creating pieces for on camera, students will have the chance to build a folio of audition pieces for professional or amateur theatre and school concerts. Towards the end of the year students will present a performance in front of an invited audience. One of the most challenging, rewarding and enjoyable types of performance, musical theatre classes increase a child's confidence and abilities both inside and outside of the rehearsal room.
